ABOUT US

- Bistro Svatoslavova is a new concept of a modern bistro with healthy gastronomy under the OLIVE Food family.
- OLIVE Food is active on the Czech market since 2010, when it opened its first restaurant in Karlín. It gained customers quickly thanks to its international cuisine for reasonable prices. In 2014 OLIVE opened other restaurants, mainly in office buildings in prestigious areas of Prague.
- OLIVE Food also runs business lunch restaurant Danubio, asian NOODLE BAR and a network of modern cafés.

OLIVE FOOD PHILOSOPHY

- Our kitchen is based mainly on fresh produce and our chefs never use pre-made food. We prepare all of our sauces such as our very strong broth demi-glace. We've gained many satisfied customers in our restaurants thanks to this philosophy. Our customers can always rely on us to deliver fresh and quality food for their money. Evidence of this being that our customers come back happy every day.

WHAT MAKES OLIVE CONCEPT UNIQUE

- It is mainly variety in our menu, which differentiates us from ordinary canteens. We know how to prepare meal so that you won't grow tired of it.
- Our daily menu will consist of three warm meals, two meat based and one vegetarian, soup and in future salad bar.
- Once every 2-3 weeks will our weekly menu contain meals from Asia, Mexico, Mediterranean or French cuisine.
- From October onwards we will also launch the sale of our additional breakfasts, snacks and drinks.
- Belonging to this concept is also our strategy of hiring employees - chefs always come from the country where the meals they make are from.
